Professional Summary

Front-End Developer with 3+ years of experience building scalable, responsive, and high-performance web applications using React.js, JavaScript, HTML, and CSS. Experienced in API integration, data visualization (D3.js, Plotly.js), performance optimization, and cross-functional collaboration.

Technical Skills

Programming Languages: JavaScript (ES6+), HTML5, CSS3
Frameworks & Libraries: React.js, Bootstrap, Tailwind, D3.js, Plotly.js, Framer Motion
Concepts: REST API Integration, Responsive Design, State Management, Component-Based Architecture, Performance Optimization
Tools & Platforms: Git, GitHub, Jira, Figma
Other: Cross-browser Compatibility, Debugging, UI/UX Implementation

Experience

Front-End Developer | *Kan Innovations Pvt. Ltd.* Mumbai, Maharashtra | Nov 2022 – Present

- Designed and developed responsive, **pixel-perfect user interfaces using HTML5, CSS3, Bootstrap, JavaScript (ES6+), and React.js**, ensuring **cross-browser compatibility** and **accessibility compliance**.
- Collaborated with **cross-functional teams (UI/UX, backend, product)** to deliver **scalable, high-quality web applications** aligned with business requirements.
- Integrated **REST APIs** and **dynamic data** into frontend components with efficient **state management, real-time rendering**, and robust **error handling**.
- Built **interactive dashboards and data visualizations** using **Plotly.js and D3.js**, while developing **modular, reusable component**s following modern frontend best practices.
- Improved application performance by **~80%** through rendering optimization and reduced DOM updates, and enhanced **PDF generation using Playwright**, achieving up to **60% faster, higher-quality report downloads**; conducted **code reviews** and resolved **production issues** to support continuous improvements.
- Actively addressed **client-reported issues** and complaints by identifying **root causes, debugging frontend problems, and delivering timely fixes** to ensure client satisfaction.

Projects

Afora Lab
Tech Stack: HTML5, CSS3, JavaScript (ES6+), Python, Flask (REST APIs)

- Developed modern, pixel-perfect medical dashboards using HTML5, CSS3, and JavaScript (ES6+), including interactive components such as real-time timers and gauge visualizations.
- Integrated frontend with Flask-based REST APIs (GET/POST) to efficiently fetch and submit dynamic healthcare data.
- Migrated PDF generation from HTML-to-PDF to Playwright, improving PDF quality and pagination while achieving 50–60% faster and higher-quality report generation.

Physio Lab
Tech Stack**:** HTML5, CSS3, JavaScript (ES6+), Bootstrap, D3.js, Interactive Data Visualization

- Designed and developed pixel-perfect, responsive UI using modern JavaScript (ES6+), HTML5, CSS3, and Bootstrap to deliver an intuitive healthcare analytics interface.
- Migrated data visualizations from Plotly.js to D3.js to enhance performance, improve rendering efficiency, and achieve greater customization of interactive charts.

Dime
Tech Stack: JavaScript (ES6+), Annotorious.js, Python, Hardware Integration

- Led frontend UI development for a foot-scanning application, designing a responsive and user-friendly interface for medical image analysis.
- Implemented image annotation features using Annotorious.js to accurately mark ulcers, corns, calluses, amputations, and other foot conditions.
- Integrated frontend with Python-based backend and scanning hardware to enable seamless data capture, processing, and issue tagging.

Vital.PT
Tech Stack**:** JavaScript (ES6+), SVG, Plotly.js

- Revamped the entire frontend UI with a modern, responsive design to enhance usability and visual consistency across the platform.

Dermasole
Tech Stack**:** React.js, AWS S3

- Developed responsive and user-centric UI components using React.js for displaying and managing medical imaging data.
- Integrated frontend with AWS S3 to securely retrieve and render stored image data within the application.

Smart Task Manager (Personal Project)
Tech Stack: React.js, Bootstrap, MUI X Charts
Link: https://akankshi-gupta.github.io/Smart-Task-Manager/

- Developed a task management web application with CRUD functionality.
- Implemented state management and dynamic UI updates with theme customization.
- Integrated charts for task analytics and productivity tracking.

Education

Bachelor of Science in Information Technology — 2019 – 2022
Guru Nanak College of Arts, Science and Commerce — Mumbai, Maharashtra
CGPA: 8.83/10

Higher Secondary Education – Science — 2017 – 2019
The Andhra Education Society's High School — Mumbai, Maharashtra
